

Mobility Insurance Companies

We would stress that we are not qualified, nor regulated Insurance advisers and the list below is intended as a helpful guide only.

We receive many enquires at the office regarding insurance for both wheelchair cover and holiday insurance. Therefore, below is a list of companies who may be able to offer the insurance cover you need.

It is your responsibility to ensure that any policy you arrange is suitable for your needs and that you fully understand any restrictions or exclusions in the cover. It is always worth shopping around to get quotes suitable to your individual circumstances.

The below list has been compiled based on companies we know some of our members have used in the past.
